Why have Restricted Parking Zones?

- Curb space is a limited public resource
- Balance and prioritize competing needs

Restricted Parking Zone (RPZ) Program

- What are RPZs designed to do?
 - Limit long-term, commuter parking
 - Allow short-term parking for visitors
 - Prioritize residential parking access

Restricted Parking Zone (RPZ) Program

- What are RPZs designed to do?
 - Limit long-term, commuter parking
 - Allow short-term parking for visitors
 - Prioritize residential parking access
- RPZs **do not**:
 - Differentiate between types of residents
 - Guarantee or reserve anyone a parking space in the public right of way

How do RPZs work?

- Permits exempt residents from time limit
- Most other vehicles subject to 2-hour time limit
- 4 decal permits per household
- 1 guest permit per household
- Current fee is \$65/two years

Why change RPZs in Wallingford?

- Better manage parking
- Requests from Wallingford Community Council (WCC)
- Parking study and community feedback

Proposal

New Zone 34

New Zone 34

Remove Zone 5

--- Current RPZ 5 signed blocks proposed to be removed

RPZ 5 signs would be removed in fall 2018 and parking would become unrestricted

Remove Zone 5

- Original traffic generator closed
- Found there is parking available during the day and evening
- Majority of households in Zone 5 are not purchasing permits

Split Zone 22, expand

- Revised Zone 22
- Residents eligible for Zone 33 permits
- New RPZ 33 signed blocks
- Current Zone 22 (proposed Zone 33) signed blocks

Proposed new restrictions would limit vehicles without Zone 33 permits to 2-hr parking Monday – Friday, 7 AM – 6 PM

Split Zone 22, expand

- Found parking is very full in this area
- Many vehicles parked did not belong to residents, stayed for a significant amount of time
- Comments we received support creation of a new RPZ here
