

One Block of New Walkway on S Juneau St

To make it safer and easier to walk to Brighton Park and Aki Kurose Middle School, we're building an asphalt walkway on the south side of S Juneau St between Renton Ave S and 39th Ave S.

What does it include?

An asphalt walkway that's approximately 6 feet wide with wheel stops to separate it from the street.

We had hoped to include a planter strip with trees but ran into drainage and slope problems. We're working with our Urban Forestry team to still hopefully incorporate trees into the project.

A new all way stop and marked crosswalks at S Juneau St and 39th Ave S.

We'll need to trim back some vegetation to allow for space for the walkway.

Speed humps to slow people driving down.

When?

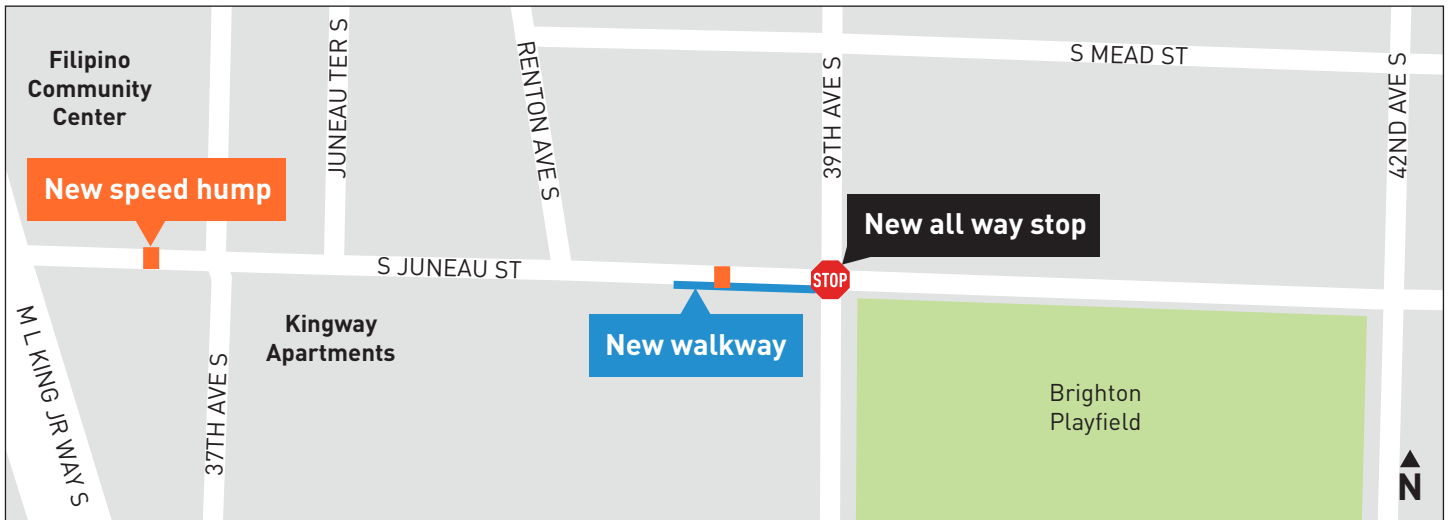

We anticipate construction to start in late summer 2025 and we'll notify neighbors as we have a better idea on timing.

Contact us with any questions!

Transportation

The walkway will look similar to this example with concrete wheel stops and potentially trees between the walkway and homes.

We're planning to build a new sidewalk to make it safer and easier for kids to walk to school (see map). Please call for translation: 206-482-1580

Planeamos construir una nueva acera donde sea más seguro y sencillo que los niños caminen hacia la escuela (consulte el mapa). Llame para solicitar servicios de traducción al: 206-482-1580
